☐ Continuation Sheet Attached**Brief Description of Argument to be Presented:**

With respect to claim 1, want to discuss why cited Robinson and Hansen do not teach or suggest the claim requirements of updating the job tickets applicable to the print source file in response to altering at least one page in the print source file. The cited para. [0076] of Robinson mentions that the master ticket is linked to image data. The cited step 214 of Robinson mentions marking a portion of a master ticket to activate a current ticket set. The cited col. 6 of Hansen discusses applying formatting and modifications to a document globally, not multiple job tickets when updating the source file from which the job tickets were created. There is no teaching in the cited Hansen of job tickets describing print instructions applicable to a single print source file.

With respect to claim 4 and 5 want to discuss why cited Hansen and Robinson do not teach or suggest updating the job tickets by automatically amending the print instructions of the job tickets to account for the alteration.

With respect to claims 7 and 8, want to discuss why cited Hansen and Robinson do not teach or suggest updating the job tickets applicable to the print source file by automatically amending the print instructions of the first job ticket and of the at least one additional job ticket applicable to the first print source file to account for the at least one imported page.

An Interview was conducted on the above-identified application on _____.**NOTE:****This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).****This Application will not be delayed from issue because of applicant's failure to submit a written record of this interview.
